

JEEVA M

Software Developer

jackjeevajiiiva@gmail.com | + 917604885724 | *LinkedIn* | *LeetCode* | *GitHub*

Professional Summary

Full Stack .NET Developer with 3+ years of experience building scalable web applications using ASP.NET Core, MVC, and SQL Server. Skilled in backend development, API integration, and performance optimization. Experience in enterprise applications and Agile methodologies.

Work Experience

Full Stack .NET Developer(C#)

2023 – Present

Perennial Innovative Solutions, Hosur

- Delivered scalable **4+ Perennial solutions** using **ASP.NET MVC and Web API** used by **500+ users**, increasing overall system stability by **30%**.
- **Enhanced** SQL Server performance by refining stored procedures and complex queries, achieving a **40% reduction** in execution time.
- Improved front-end responsiveness through effective use of JavaScript, jQuery, and AJAX, resulting in a **25% faster page load**.

Projects

Chit Fund Management System

(ASP.NET MVC, C#, SQL Server, JavaScript)

- **Created** customer, chit group, auction, and collection tracking modules, handling **500+ customer records** with accurate data management.
- **Automated collection workflows** and financial reporting, reducing manual data entry by **35%**.

Asset Management System

(ASP.NET MVC, C#, Web API, SQL Server)

- Built asset registration, allocation, and maintenance tracking modules managing **1,000+ assets** across multiple branches.
- **Integrated** RESTful APIs to support **real-time asset updates and reporting dashboards**.
- **Implemented** role-based authorization and audit logging, improving **asset traceability by 40%**.

Enterprise Resource Planning (ERP)

(ASP.NET MVC, C#, Web API, SQL Server)

- **Designed** quotation, order management, production planning, and work order modules supporting **end-to-end workflows**.
- Enabled seamless data flow between **engineering, production, and inventory modules**.
- **Optimized** database queries and **API interactions**, reducing overall process turnaround time by **30%**.

Machine-Level Automation Software

(C#, TCP/IP, Industrial I/O)

- **Worked with IP-based TCP/IP communication** to monitor, trigger, and troubleshoot robotic operations and industrial I/O signals in real time.
- Performed **root-cause analysis and on-site debugging** across **10+ production machines** while deployed from **Titan Engineering and Automation Limited (TEAL)**, resolving **20+ critical issues** and improving overall system reliability.
- Provided on-site technical support at **Foxconn Bangalore and Tata Electronics (Kolar and Hosur)**, ensuring smooth operation of high-volume manufacturing equipment.

Skills

Programming Languages: C#, SQL, Java

Backend Technologies: ASP.NET Core, ASP.NET MVC, Web API, Entity Framework, LINQ

Frontend Technologies: HTML5, CSS3, Bootstrap, JavaScript, jQuery, AJAX

Database Technologies: SQL Server, MySQL, Stored Procedures, Query Optimization

Tools & Platforms: Git, Postman, IIS, Windows Server, Visual Studio

Development Practices: REST APIs, MVC Architecture, OOP, Design Patterns, Agile, SDLC, CI/CD

Education

Bachelors Degree in Computer Science (CGPA 7.1/10)

Shevaroy's College of Arts and Science Yercaud Salem.

(Jun 2018 - May 2021)

Masters Degree in Computer Science (CGPA 7.0/10)

Periyar University PG and Research Studies Dharmapuri.

(Jun 2021 - Apr 2023)
